YOUTH DEVELOPMENT

TYPHOONS SWIM TEAM

As a year-round program organized and operated by the Aquatics Department of the Hamden/North Haven YMCA, the Typhoons are dedicated to providing a high-quality and nurturing environment for swimmers of all levels between the ages of 5-18. Through the facets of the swim team program, the Y looks to continue its 40-years of community impact with a focus on building Youth Development, Healthy Living, and Social Responsibility. YMCA and US Swimming jointly provide an unparalleled opportunity for children as the largest co-gender sport throughout the nation. To couple with the overall experience, swimming also builds a strong foundation for a lifetime of good health by teaching age-appropriate fitness habits. The Typhoon Swim Team utilizes a form of age swimming with a focus on team involvement through ability and age-based practice groups. Offering a stimulating, enjoyable program that stresses stroke technique, starts, turns and basic training, we measure success not in terms of one or two extremely successful swimmers, but in the measurable improvement of all our swimmers. Our members become the best swimmers they can be, by improving their physical skills, developing self-confidence and self-discipline, and an appreciation for the way that they and their teammates can help each other attain their goals through teamwork and mutual support. We practice from late September to mid-March and mid-April to late July.

DIABETES PREVENTION PROGRAM

YOU CAN REDUCE YOUR DIABETES RISK AND GAIN TOOLS FOR HEALTHY LIVING THROUGH THE YMCA'S DIABETES PREVENTION PROGRAM

If you are at high risk for type 2 diabetes, the YMCA's Diabetes Prevention Program can help you adopt and maintain healthy lifestyles that will help you reduce your chances of developing diabetes.

The YMCA's Diabetes Prevention Program helps those at high risk of developing type 2 diabetes adopt and maintain healthy lifestyles by eating healthier, increasing physical activity and losing a modest amount of weight in order to reduce their chances of developing the disease. Based on research funded by the National Institutes of Health and the Centers for Disease Control and Prevention, the program reduces the risk of developing type 2 diabetes by 58%.

ABOUT THE PROGRAM

In a classroom setting, a trained lifestyle coach will help facilitate a small group of participants in learning about healthier eating, physical activity and other behavior changes over the course of 16 one-hour sessions. After the initial 16 core sessions, participants meet monthly for added support to help them maintain their progress.

PROGRAM GOALS:

Reduce body weight by 7%

Increase physical activity to 150 minutes per week

WHO CAN PARTICIPATE?

In order to qualify for the program, you must be at least 18 years old, overweight (BMI > 25)* and at high risk for developing type 2 diabetes or have been diagnosed with prediabetes† by a healthcare provider.
