SWIM LESSON LEVELS AND DESCRIPTIONS

OUR PARENT AND CHILD SWIM LESSON PROGRAM

Our parent and child aquatic program is designed to teach basic water safety skills to children, and teach parents/guardians how to facilitate the learning of those skills during and outside of swim class. Our aquatic team is dedicated to providing a fun and positive environment for the children and parents.

AGES 6 TO 36 MONTHS

Shrimp 1:10 class ratio

Children in this class must be at least 6 months old and should have strong head control. (6-8 months)

Kipper 1:10 class ratio

Children in this class must be at least 9 months old, and should sit unassisted and stand with support. (9-12 months)

Inia 1:10 class ratio

Children in this class must be 13 months old, and should be able to stand unsupported and walk with assistance. (13-18 months)

Perch 1:10 class ratio

At 19 months of age, your child should be able to run and jump. At this stage your child is encouraged to explore their aquatic environment and their own skills with the assistance of their parent. The goal for this level includes propelling oneself through the water and the transition to the preschool swim levels. (19 - 36 months)

OUR YOUTH SWIM LESSON PROGRAM

Our youth aquatics program is dedicated to teaching students personal water safety, stroke development, water sports and games, rescue and personal growth skills. Through a student-centered approach, our program is taught in groups based on age as well as skill which allows children to learn at their own pace with their peers and the guidance of our aquatic team.

PRESCHOOL CLASSES AGES 3 TO 5 YEARS

Pike 1:6 class ratio

Child must be comfortable in the water with a swim instructor and independent of a parent for the duration of the class. Pikes adjust to the water and develop independent movement. Instructors teach basic stroke and kicking skills, floating and pool safety.
